Scenarios

The deployment type map generator located in the 9th age rules will be used for each round. One deployment type will be used for all games that round, no repeats

There will be no specific scenarios per say, but secondary objectives will be assigned as follows:

Game 1: Hold The Ground

Game 2: DRAGON BROOD. Follow rules for the “Hold the Ground” secondary object, except the center object will be a dragon nest (with real eggs, promise!). All dragons (and derivatives such as wyverns, but not Dragon Ogres) occupying this feature count as scoring, and have the frenzy rule.

Game 3: Capture the Flags

Day 2

Game 4: MONSTER MASH use the “Breakthrough” Secondary objective, additionally all Models/units with the Towering Presence rules unit types (including Ridden monsters) will count as scoring units (as well Dwarven Grudge Busters and Kingdom of Equitain Sacred Reliquies) , in addition to the normal definition of scoring troops.

Game 5: Roll on Secondary Objective Chart

Rules Discrepancies

Miniatures gaming is full of grey areas, A tourney official will be happy to swing by and clarify any rules questions you may have. There are two reasons for doing this.

- A. You are both confused by a situation and want to discuss it with a rules judge.
- B. There is a disagreement between you and your opponent regarding the rules.

If it is the later, it is strongly advisable to resolve conflicts like this between you and your opponent in a friendly manner without a rules judge. You share each game with your opponent an it's up to both of you to enjoy the game, laugh, and make sure your opponent does the same. In our experience things usually turn sour after involving a 3rd party.

Regardless all rules judgments are final. While the officials are well versed in the rules, consistent and fair, mistakes can be made and decisions are irreversible. There is no instant replay.

Terrain

BEFORE EACH GAME DISCUSS WHAT EACH TERRAIN PIECE IS WITH YOUR OPPONENT, if there is a disagreement ask a tournament official.

Before choosing sides, but after rolling the scenario, each player may elect to move one piece of terrain. Roll of to see who goes first (highest roller), the second player may not elect to move the same piece of terrain. **Rivers may not be moved**, or the watchtower if playing the watchtower scenario. After the battle players can return the terrain to the original positions (if they remember ;-)) , also a tourney organizer may walk through and move things about between rounds. At the start of a round, If you notice that the table has an unusual terrain arrangement, call over an organizer before you start.
