## Scenarios

The deployment type map generator located in the 9<sup>th</sup> age rules will be used for each round EXCEPT ROUND 1, no repeats. One deployment type will be used for all games that round, no repeats

There will be no specific scenarios per say, but secondary objectives will be assigned as follows:

**Game 1: A MIGHTY MIST. This scenario has blind deployment.** A barrier will be erected pregame representing the dense valley fog. Each player fully deploys their army behind the barrier, following **front line** clash deployment. Roll off for First Turn, the player that did not choose sides get +1 to their roll Winner can choose to go first or second, however all troops in the opposing deployment zones are considered to be in Soft Cover the first half of turn 1. Scouts are placed after the barrier is raised Immediately after raising the barrier(roll off for who places first), Models that have the towering Presence rule gain **Vanguard (12")**. **All units making a vanguard move that have towering presence must make a dangerous terrain if electing to vanguard.** Alternate Vanguard moves starting with the player that choose sides. The Secondary Objective is "Spoils of War".

**Game 2: Call of the Wild.** Follow rules for the "Capture the Flags" secondary object. All rank and file models with towering presence gain the Special Ambush rule. These Models may roll to enter on a random board edge turn 1. If they fail their ambush roll on turn 2 they may wait, or automatically into their own deployment Zone turn 2, On turn 3 they automatically pass their ambush roll.

**Game 3: MONSTER MASH** use the "Breakthrough" Secondary objective, additionally all Models/units with the Towering Presence rule unit(including Ridden monsters) will count as "scoring". **EACH PLAYER FIELDS THEIR 350 POINT GIANT CONTINGENT**, this contingent does **not** affect battle points calculations.

### Day 2

**Game 4: KONG ISLAND.** Follow the Rules for King of the Hill. Models with Tower Presence count as scoring and have the FRENZY rule if within 6" of an objective.

**Game 5:** Roll on Secondary Objective Chart (1-3 Hold the Ground, 4-6 Secure Target)

## Rules Discrepancies

Miniatures gaming is full of grey areas, A tourney official will be happy to swing by and clarify any rules questions you may have. There are two reasons for doing this.

- A. You are both confused by a situation and want to discuss it with a rules judge.
- B. There is a disagreement between you and your opponent regarding the rules.

If it is the later, it is strongly advisable to resolve conflicts like this between you and your opponent in a friendly manner without a rules judge. You share each game with your opponent and it's up to both of you to enjoy the game, laugh, and make sure your opponent does the same. In our experience things usually turn sour after involving a 3<sup>rd</sup> party.

Regardless all rules judgments are final. While the officials are well versed in the rules, consistent and fair, mistakes can be made and decisions are irreversible. There is no instant replay.

## Terrain

This is a terrain heavy event! It can be challenging to maneuver large units, or get lots of artillery sight lines.

**Dragon Nests:** Many tables will have a dragons nest with yummy dragon treats. This piece of terrain has the following rules: Ruins, All dragons (and derivatives such as wyverns, but not Fell Drakes) occupying this feature gain STUBORN and FRENZY.

**BEFORE EACH GAME DISCUSS WHAT EACH TERRAIN PIECE IS WITH YOUR OPPONENT, if there is a disagreement ask a tournament official.**

**Note: Terrain Moving no longer allowed**

## Battle Points

For base scoring see 9<sup>th</sup> age rule book.
