Rules Discrepancies

Miniatures gaming is full of grey areas, A tourney official will be happy to swing by and clarify any rules questions you may have. There are two reasons for doing this.

- A. You are both confused by a situation and want to discuss it with a rules judge.
- B. There is a disagreement between you and your opponent regarding the rules.

If it is the later, it is strongly advisable to resolve conflicts like this between you and your opponent in a friendly manner without a rules judge. You share each game with your opponent and it's up to both of you to enjoy the game, laugh, and make sure your opponent does the same. In our experience things usually turn sour after involving a 3rd party.

Regardless all rules judgments are final. While the officials are well versed in the rules, consistent and fair, mistakes can be made and decisions are irreversible. There is no instant replay.

Terrain

This is a terrain heavy event! It can be challenging to maneuver large units, or get lots of artillery sight lines. **UNITS ARE ONLY CONSIDERED TO BE IN A TERRAIN FEATURE IF THE MAJORITY OF THEIR UNIT FOOTPRINT IS IN THE FEATURE.** This is a change from the current 3.0 terrain rules, modified as this is a terrain heavy event.

Dragon Nests: Many tables will have a dragons nest with yummy dragon treats. This piece of terrain has the following rules: Ruins, All dragons (and derivatives such as wyverns, but not Fell Drakes) occupying this feature gain STUBORN and FRENZY.

BEFORE EACH GAME DISCUSS WHAT EACH TERRAIN PIECE IS WITH YOUR OPPONENT, if there is a disagreement ask a tournament official.

Note: Terrain Moving no longer allowed

Battle Points

For base scoring see 9th age rule book.

Achieved if any of your units with the Towering Presence rule killed (inflicted the last wound) on an opposing model/unit with the Towering Presence rule.

Don't tread on my Turf!

Big and little monsters can be quite territorial, brutally defending their space.

Achieved if there are no enemy units in your deployment zone at the end of the battle

Claim The Hunting Grounds

Monsters need to control their territory, and the best way to keep away unwanted visitors is to be in the most visible location and Scream as loud as they can.

Achieved if your unit with the Towering Presence is the first to gain the elevated Position rule on a piece of terrain completely outside your friendly deployment zone. Reveal when achieved.

Fito Sick Balls

There is a long unjust history between the generals of these two armies, a history that can only be set right by the spilling of blood.

Achieved for killing or running down your opponent's most expensive character. In the event of equal points, mark down the tastiest one before the battle starts (write on the card).

Feed the Beast

It can take a lot of raw meat to keep a good in zoo in business. Sometimes the entire purpose of a battle is simple to secure food for the lovably big guys.

Achieved by destroying your opponent's largest unit(by starting wound Count, double wounds for cavalry)

Top of the Food Chain

There can be only one alpha male/female, on the top of the food chain and "RARGH! my woobie is the Bestest! "!!! .

Achieved by only having friendly units with the towering presence rule on the table at the end of the game.
